

Dear Senator Frist, Since You Like to Use the Word "Frivolous" So Much, We Decided to Look it Up. It Means "Trivial," "Silly," and "Insignificant."

**(Just for Clarification Purposes, Our Children's
Futures are Not Silly, or Trivial, or Insignificant.
Please Find Another Word.)**

Preston is vaccine-injured. Trying to take care of him is anything but "frivolous."

All We Want is Care for Our Injured Children.

Did we really "jump on the bandwagon"? Are we really just looking to point fingers and make money? Are we crazy? No, no and no. In fact, we are parents who only want what's right and fair. Taking away a sick child's right to seek resources that can help with their lifetime care is the opposite of fair. So, Senator Frist, why are you doing it?

**ALLOW ALL VACCINE-INJURED CHILDREN INTO THE NVICP AND CIVIL COURT
AND GIVE THEM A GOOD SHOT FOR ONCE.**
