

“TAAP into the Truth!”

TAAP (The Autism Autoimmunity Project)

From the President.....

Speaking the Truth with Love...

Where should I begin? I guess I'll start with my four-year old autistic angel (Casi), who passed away on June 13th, 1999. She was injured by her childhood vaccines and “labeled” autistic, which is currently an epidemic. Researchers are proving ADD/ADHD and many other autoimmune “labels” today are also caused by vaccines.

God loaned me one of His dearest angels for four years and all I can do is thank Him for the time He gave me. I also thank Him for giving me clarity on her purpose for joining us in this world and making my mission in life very clear. I would not be breathing today, if He had not shared His purpose of why He is sending all these angels to us. We have given man the power of our “Master Physician” and He is taking His power back!

We were created perfectly with fever, vomiting and diarrhea to eliminate sickness. We've allowed man to convince us to suppress these defenses and then to bypass them, injecting biological toxins (vaccines) for

immunity. Dr. Legault explains it perfectly in her “4 Generations of No Vaccinations” article in this publication, “Do you believe in God or man?”

I now see clearly why medical doctors are against chiropractors, because most of them believe the body has the innate ability to heal from the inside out. They release the blockages, so God can do His job. Most medical doctors heal from the outside in, “Take a pill for this, take a pill for that” and “You don't need tonsils, you don't need a gall bladder.” God did not make us with extra body parts. Like a broken arm or a cut finger, the body can heal on its own!

I started Casi's Quest (TAAP of Florida) after she passed away and was led to bring the few medical doctors who think “outside the box” to expose the truth about vaccines. In 2001, we sponsored Dr. Andrew Wakefield and Dr. Jeff Bradstreet in Ft. Lauderdale. We had 600 people attend the conference and were able to raise \$40,000 for Dr. Wakefield's research, which is proving

what many of us parents already know. Medical doctors get their education from the schools, which receive funding by the pharmaceutical companies and they have input on what they are taught. We all have been misled, so I brought medical doctors who listen to us parents to open the eyes of the misinformed.

We sponsored Dr. Vijendra Singh in 2002 and 300 people were able to see his research validating the autism/vaccine connection. We were able to raise \$10,000 for his research and have given him an additional \$5,000 since. We've been funding Dr. Gerald Gluck's research on neurofeedback for autistic children, totaling over \$80,000 from May 2003 thru Jan 2006.

TAAP fully funded both 2003 rallies in front of the capital, removing the provision in bills protecting the pharmaceutical companies from liability. We also gave a \$10,000 donation to Dimensions Therapy for a summer camp program for children who were unable to afford to participate. Dr. Bersson's article in this publication explains the details.

*In Loving Memory of
Casi Renè*

June 3, 1995 ~ June 13, 1999

Protect our children!

Join the fight!

Make it your business to do
what's right!

Don't let them be victimized,

we have a choice!

Love our children,
be their voice!

A COPY OF THE OFFICIAL REGISTRATION (#SC-CH12707) AND FINANCIAL INFORMATION MAY BE OBTAINED FROM THE DIVISION OF CONSUMER SERVICES BY CALLING TOLL - FREE 1-800-435-7352 WITHIN THE STATE. REGISTRATION DOES NOT IMPLY ENDORSEMENT, APPROVAL, OR RECOMMENDATION BY THE STATE. THIS ORGANIZATION RETAINS 100% OF ALL CONTRIBUTIONS RECEIVED."

The founder of TAAP had a lot of responsibility with his seriously vaccine injured son, so he asked me to take over. He did not want any responsibility, but I convinced him to stay with us. I created a "Founder" position, so he could get the recognition he deserves and didn't want to ask him of much. We had a financial officer who could not work for free and I had to fill her place. We had a VP who was inactive and I had to fill that position. Our Secretary has been my only physical help over the years, although she has two vaccine-injured children and her time was limited.

I'm one of the few parents, who no longer have the responsibility of caring for an autistic child and have made the time to help save these innocent victims. I have been wearing every hat for years and God has moved mountains thru me and I thank Him for that. I don't need a pat on the back because my philosophy has always been that "God knows and that's all that matters".

I started with an email list of approximately 10 people and have built an army for Him. He has used me to plant seeds in the autism community and He has grown those seeds. When I first got started, most parents of autistic children listened to their pediatrician and didn't believe vaccines were the cause. I have promoted every other group and individuals speaking the truth about vaccines, not expecting any recognition. I have been taken advantage of over the years by many, but He's always had me in his hand and assured me He had everything under control.

God assured me not to worry about money, because that was not of His world and He would always provide. I have used my personal credit to support TAAP and have recently settled with the hospital that was responsible for Casi's death. I donated \$65,000 to pay the debt accumulated over the years,

mostly for traveling nationwide and waking up whoever would listen. I've slept about five hours a night since Casi's death, living and breathing for this organization.

I am ready to live life again and do not want the responsibility a non-profit organization requires. It's obvious that God wants me focusing on reaching the misinformed world with the truth. I am now traveling the nation presenting "Educate BEFORE You Vaccinate" seminars, providing over 20 years of research proving the dangers of vaccines. The victims have merged with the chiropractors, so God help the pharmaceutical companies!

We've recently had changes in the organization and it's just too much responsibility for me to continue at the same pace. We have decided to dissolve TAAP because it requires a board and lots of paperwork controlled by the ones we're trying to expose. I am now the Keynote Speaker for VIC (Vaccine Injury Coalition) and anyone who has "Eyes to See and Ears to Hear" is welcome to be part of this coalition. The pharmaceutical companies only goal is to get us sick and keep us sick, so they can continue supporting their money-around. They will now have no control and we will expose all of their lies!

I will continue exposing the truth, so these already injured children do not get more toxins injected into them and save the innocent victims who are receiving a Hepatitis B vaccine within three hours of birth. Helping the vaccine injured with non-pharmaceutical treatments and funding the independent researchers is also very important when funding is available.

The presentation exposes all autoimmune (body attacking itself) "labels" in children and adults today are caused by the vaccines. It also provides the exemption laws, so children can get into school without vaccines. It covers the congress-

sional hearings on the vaccine dangers, the conflicts of interest and all the toxic ingredients in vaccines. It reveals the charts showing that diseases declined due to better sanitation and nutrition, oppose to the pharmaceuticals vaccines. I recently had a nurse at a presentation inform me that in medical school they're misleading the students. They are showing the charts of the disease epidemics, but are only showing them the decline after the pharmaceutical companies introduce the vaccines.

Anyone who has already joined TAAP membership will automatically be a VIC member. Members of the coalition can be listed on the website, unless privacy is requested. I can also refund your \$25, if that is what you prefer. VIC will send a bi-yearly publication and I would like to send an "Educate BEFORE You Vaccinate" sweatshirt and a free introduction DVD for those who were expecting a quarterly publication. There will also be a confidential email list and can be accessed thru the VIC website, unless you are already subscribed through TAAP. Individuals and businesses are welcome to join the coalition for \$25 yearly and also receive a free DVD. Please send your check or money order to PO Box 293144 Davie, FL 33329. You may also call 954-252-0525 or toll free at 800-939-8227, with your credit card information.

We appreciate everyone's support over the years and hope you continue helping us be the voice for these voiceless angels! I thank everyone for understanding these changes and welcome anyone who wants to be part of this coalition. A quote on our website says it all, "The task ahead of us is never as great as the power behind us." Love to everyone and God bless always, April

"TAAP into the Truth" is published by TAAP (The Autism Autoimmunity Project)

Your Children... Your Choice... Your Rights...

VIC (Vaccine Injury Coalition) is dedicated to educating parents, doctors and the community on the dangers of our childhood vaccine program. April Renée is available to speak to your patients, friends and religious organizations. Help us to reach the families and schedule your FREE lecture today by calling 954-252-0525 or 800-939-8227

Topics discussed are:

- Exemptions
- Congressional Hearings
- Vaccine ingredients
- The Autism/ADD/ADHD epidemic
- Did vaccines eradicate disease?
- Provides over 20+ yrs of research
- Are vaccines causing all autoimmune “labels”?
- SIDS and SBS link to vaccines

Speaking the Truth with Love...

In Loving Memory of Casi Renée

June 3, 1995 ~ June 13, 1999

Autism is 1 in 150 children today, not including ADD/ADHD!

“Please learn from our mistake and educate BEFORE you vaccinate”

4 GENERATIONS OF NO VACCINATIONS

The power that made the body has the power to heal the body! Do you think that God worked so hard to make us so perfect, that He would have forgotten an excellent immune system? Or do you think that He would have made us with such imperfections that we are vaccine deficient, aspirin deficient, lack antibiotics? I guess the question is: do you believe in God or man? Personally, I trust God over man any day. This is how my family has been raised and hopefully will continue to be raised for generations to come.

At birth, the body has everything it needs for the rest of your life including antibiotics, penicillin, pain killers, anti-inflammatories and natural immunities, especially if you are being breastfed. God built your body so that a man and women can join together as one and conceive a beautiful baby. That baby grows inside the mother's womb and nine months later is born so perfect. Then immediately the baby is vaccinated and drugged before even being fed or held by the parents. Well most of you have been vaccinated within a few hours of your life and never had a chance to build a great immune system. Someone convinced your parents that you could not live without them and you need the vaccines to be healthy, right?

My family has never been vaccinated in four generations. We are living proof of natural immunity and trusting in God. The chances of dying or having serious problems from any of the childhood diseases are slim to none, but the chances of having any reactions or serious problems from the vaccines are at least 10 times greater. Again, who do you trust more man or God?

Let's start with my grandparents on my dad's side. My grandmother died, due to a medical mistake while giving birth to her twelfth child, leaving my grandfather alone with 11 children still living at home. A few months later, he found out that he was diabetic and he had a few months to live.

Being a very religious man, he prayed to God and he was directed to my great uncle who was an MD, naturopath and chiropractor. This uncle looked at him and said "You have a pinched nerve in your spine which is interfering with your communication to your brain and your pancreas, so let's free that interference then let God to the rest". Your body heals from above down inside out not outside in, so my grandfather lived until the age of 78. After discovering chiropractic, my grandfather had all the children treated allowing nature to provide. From that point on, he never allowed any of his children to take any medications whatsoever.

My grandparents on my mother's side could not have children and went to a chiropractor after 8 years of the medical game with no success. A pinched nerve was found in the lower back, stopping the communication from the brain to the reproductive organs. After three adjustments my grandmother got pregnant and had 5 children. My grandfather wanted him to undo it after!! HaHa!! Well after seeing that the body works from within and understanding that we are born with everything we need, if something is not functioning then we must restore from within. They were never vaccinated, because they were born way before the vaccines were introduced.

Both my grandparents were teachers and back then when they vaccinated, they never asked for parent consent. They taught their kids that if they realized they were in line to be vaccinated, they had to get out ASAP and make up an excuse like "I need to go to the bathroom, I feel like I am going to throw up, twist your ankle". Whatever it took, but get out of line or they will poison you! The five kids did this and a few days after the vaccines were administered; the school would notice the Kirk kids were not vaccinated. They would tell my grandparents that their kids could not be in school, so my grandfather would take all his kids home. A day or two later, the school would call and say by law your kids must be in school. He would bring them back to

school. A few days later they would look at the files and say, "Your kids need vaccinations or they can't go to school." He again, would take the kids home. After a few weeks of stupidity, the school would say, "If there is an epidemic of any disease, you will have to remove your children from the school until its safe." So they agreed and never had another problem again. All five are still alive today and none of them have ever been vaccinated.

My grandfather also told us one other important survival tip. He said, "If we ever had to go to the hospital for any reason that we must be totally mean, loud, disruptive, and nasty." He said, "The law states they must take care of you no matter what, but if you act like this they are only going to do what is absolutely necessary. They will release you and that is what you need. Wow! What advice!

My mom and dad are both chiropractors today and have kept up their health and the tradition of believing in our innate ability to heal. They had three children and all three are chiropractors. They have never been vaccinated, nor taken any kind of drug whatsoever. Not even one aspirin or antibiotic in our lifetime! We all three have children. My sister, Micheline, has two children, my brother Marcel has four children and I have four children. None of our children have ever been vaccinated or taken any kind of medications for any conditions ever. We are all health, happy and successful people. By the way, none of us including my brother, sister and our children have missed any days of school for being sick from kindergarten through our doctorate degree.

Do you want to learn about what drugs can do? Look up the tribe of Hunza from south Russia. There was a great article written in the national geographic magazine in 1973 about this tribe and how they lived to the average age of 125. They were still working, eating only what the land provided them in a pure form and sexually active.

The National Geographic reporters interviewed a couple who were 109 & 120 years old. When asked about sex they were embarrassed and answered "It's not like it use to be. It's only once a day, because we are getting older." Within a few years of this article an American medical team went to visit this tribe. They did not want to learn from there successes, but teach them how much we can help with health in America and help them increase their lifespan and improve their health.

They brought over vaccines and incorporated some basic drugs. Within a few years, their average age had dropped to 75 and there was no one left older than 100. The health report was the same as America. I don't know what you believe, but if that's not proof enough for you I don't know what is.

I am not saying to neglect your health, because it takes effort on your part to keep yourself fit. You must have proper rest, a great attitude, regular exercise, good nutrition, proper hygiene, and full brain communication to the body so that it can heal. There are many natural ways to help you when something goes wrong. Ask your grandparents they know a lot of fabulous healthy natural remedies.

God gave you one earth suit and you must live with it until you die. I think you better take care of it. There are no exchanges and once your earth suit has been worn out, you must live with it anyways.

How did we stay so healthy? Our parents raised us with a positive atmosphere, always trying to say encouraging things. They made sure we had plenty of rest; we ate lots of fruits and vegetables and drank mostly water. We were involved with sports and were adjusted at least once a week. Do you know how healthy we are? We have never even had a cavity in our lifetime and I am 41 years old. Drugs eat your enamel off our teeth!

We were so trusting in God that we all had home births, because we did not want to be threatened, forced or pressured to use any drugs or surgery. We were having a baby, not dying of any disease! We all enjoyed our births and babies. When

you look at the birth process and allow nature to take its course, it is so amazing and breath taking because it is the best miracle you can ever experience. Why would you jeopardize this?

To understand how the body works, you must understand that the brain controls the whole body. The brain communicates with the body by different signals, which include pain occasionally. Everyone thinks that pain is your enemy and you should stop the pain any way you can. But if your house was on fire and the fire alarm sounded off, would you try to put out the fire or simply turn off the annoying alarm and watch your house burn? Why wouldn't you do the same for your body?

When there is a pain signal released, there is a major problem that needs to be attended to. Your body needs some rest and the American way is take a pill, remove the pain and keep on working or playing. One day, when the medications aren't strong enough you need to increase them. Then your problem is so big that the meds do not work anymore and now it's time for surgery.

God gave organs that are unnecessary and must be removed, right? God must not have been paying attention when he developed the human being. I think He knew exactly what He was doing and we've given man His power!

Due to strong evidence about vaccines, my dad's uncle who is the MD, chiropractor and naturopath went to court against the Quebec medical association (like the AMA here in the US) for vaccinations. He won in Supreme Court in the 1960's that vaccines cannot be mandatory and hasn't been since that day. He had to have some very concrete facts to win in court. Unfortunately all his writings are in French, but maybe one day we can get them translated.

Well this is our story of the Legault/Kirk/Valcourt families!! I guess the bottom line of it all is: Do you truly believe in God or not?

Autism Awareness

*They looked at me with compassion,
I hadn't a clue why.
Then they told me my son was
challenged, and I began to cry.*

*Your son may be Autistic
or have some related disease.
I've never heard of it, I said.
Explain it to me please?*

*It occurs 1 in every 150 births,
four times more often in boys.
Families of all racial and ethnic back-
grounds, regardless of stature or poise.*

*It's a lifelong neurological impairment
that affects the ability to speak,
Play or socially interact.
I felt my knees grow weak.*

*My husband took me in his arms;
we held each other tight.
My five year old beside me asking,
"Mommy, is Stevie all right?"*

*We wouldn't have known there was a
problem, if not for his speech delay.
We thought he was just a little shy,
and preferred solitary play.*

*When she said they don't know what
causes it, I just wanted to die.
My God, this isn't happening,
they can't even tell us why?*

*God is not sleeping,
I said to myself over and over again;
Holding fast to my faith in God
to help me endure the pain.*

*Clearly there needs to be research,
it's imperative we find a way
Of getting the programs funded,
if we're ever to gain some headway.*

*Our children are so precious.
They look to us for care.
Let's show them how much we love them
and make everyone aware.*

DIMENSIONS KIDS CAMP: ENABLING CHILDREN TO ACHIEVE

A unique retreat, Dimensions Kids Camp enables children to learn and grow with therapy teams, educators and horses in idyllic Southwest Ranches and at the state-of-the-art Aventura clinic. Affiliated with Dimensions Achievements in Therapy of Aventura, the camp continues the holistic and inter-disciplinary practice that has been treating children for over 20 years.

The hippotherapy program, offered year-round, helps children both to expand their skills and appreciate the beauty of nature and working with animals. It is run by a therapist registered with the North American Riding for the Handicapped Association, assisted by an award-winning therapy team.

At Dimensions Kids Camp, children learn about the earth, they garden, improve or learn water safety skills, participate in music, dance, and arts and crafts. Cooking and yoga help complete this imaginative program.

Campers are challenged with a distinctive format designed to motivate creativity, increase socialization, and foster learning. Skills are promoted in a beautiful and natural setting. Secure bus transportation is provided from Aventura to Southwest Ranches twice per day for the summer program.

Progress comes easily, as the goal of Dimensions Kids Camp is to allow interactive, dynamic and fun-filled therapy. Newly accredited by the American Camping Association (ACA), Dimensions' program is the only integrated summer camp serving special needs children and their typical siblings in South Florida. All these innovative therapies are available throughout the year, after school and even on weekends.

Call or write to Dimensions today, because every child deserves to enjoy a natural carefree childhood and summer camp experience.

SERVICES AVAILABLE THROUGH DIMENSIONS:

- **Physical, Speech, Occupational**
- **Hippotherapy, Cranial Sacral**
- **Interactive Metronome**
- **Therapeutic Listening**
- **Services at clinic, ranch, hospitals, schools or home**
- **English – Spanish – French**
- **24 years**
- **Most Insurance Accepted**

DIMENSIONS KIDS CAMP ACHIEVES IMPORTANT ACCREDITATION

It is the only ACA accredited camp for special needs children in South Florida

Dimensions Kids Camp is proud to announce that it has been accredited by the American Camping Association (ACA). Dimensions Kids Camp an integrated camp serving special needs children and their typical siblings, is the only ACA-accredited camp for children with special needs in South Florida.

What does ACA accreditation mean? The American Camping Association is the nation agency responsible for the accredited camp experience. ACA standards, which refer to program quality and the health and safety of campers and staff, are continually revised and updated to reflect the needs of camps, the public and the changing body of laws and regulations. Additionally, ACA accreditation assists the public in selecting camps that meet industry- accepted and government-recognized standards. ACA accreditation is the best evidence parents have of a camp's commitment to a safe and nurturing environment for their children. Dimensions Kids Camp works to preserve, promote and improve the camp experience to meet the fullest potential for the enrolled children.

Robin Bersion, Executive Director of Dimensions Kids Camp and its parent organization, Dimensions: Achievements in Therapy, a full service rehabilitation clinic, is always willing to push the boundaries in her desire to employ innovation in her field. While collaborating with parents and her professional staff, Bersion realized that there were limited summer resources for children with special needs. Many of the programs offered were willing to work with children with special needs, but were not able to adequately meet the needs of these children.

Bersion collaborated with Amber Reid, Dimensions' Director of Occupational Therapy, and Dimensions Kids Camp was created in 2001. In 2005, Dimensions Kids Camp expanded to include its beautiful equestrian center located in Southwest Ranches. Maria Noguera, Director of Equestrian Programs, is a North American Riding for the Handicapped Association-registered therapist in hippother-

apy and a therapeutic riding instructor-in-training. She is a member of the American Hippotherapy Association and an integral part of Dimensions' physical therapy team. Equestrian programs run throughout the year so that children may enjoy this experience year-round and continue to expand their skills.

Dimensions Kids Camp is a day camp for children with special needs of all ages, run by licensed occupational, speech and physical therapists that specialize in pediatrics, in addition to exceptional education teachers. Dimensions Kids Camp provides campers with a distinctive format designed to challenge, motivate and promote creativity, socialization, socio-language pragmatics, cognitive, perceptual and academic skill development, positive self-esteem and overall fine and gross motor skill improvement. The goal of Dimensions Kids Camp is to provide an interactive dynamic that facilitates your children's clinical goals in a fun-filled summer program.

Campers start their day with meet and greet activities to facilitate socialization, interaction and establish the daily routine. All campers engage in the following small group experiences under the direction of licensed therapists, as a part of their daily camp experience:

- **Equine (Horse) Assisted Activities:** Dimensions Kids Camp is located in the heart of Broward County's horse farm area in Southwest Ranches. Hippotherapy, or horse-related therapy, utilizes the movement of the horse as well as horse-related activities as the therapists' tools for making functional gains. With the specially trained and selected horses and certified instructors, children at Dimensions learn and/or improve their riding abilities in an environment that promotes self-accomplishment, rapport between

the horse and the camper and facilitates animal/human communication and human/human interactions.

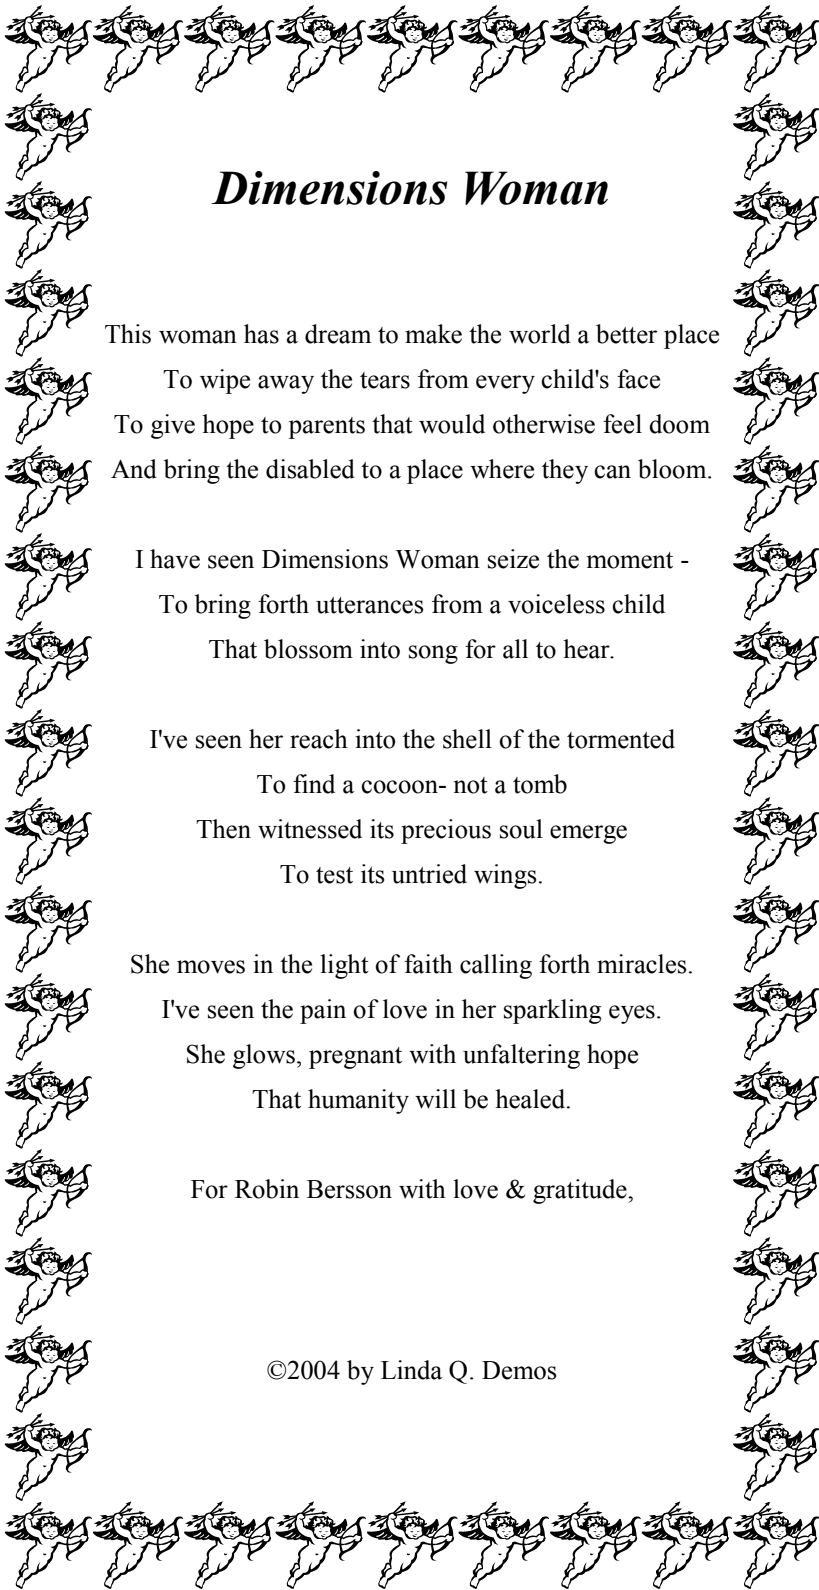

- **Occupational Therapy Groups:** Children enjoy an environment that is developmentally appropriate, stimulating and challenging, which encourages socialization, improves motor skills, strengthens their minds and creates an environment for open exploration and the discovery of new skills through play.
- **Language Pragmatics:** Children participate in an environment that is developmentally appropriate, stimulating and fun. The group setting at camp is interactive and allows children to learn social language skills, vocabulary, on-task behavior and become freer with their emotions. Additionally, groups help campers achieve both traditional and social language goals by allowing them to explore their feelings.
- **Physical Therapy Groups:** Children engage in activities that promote gross motor skills and motor planning, while learning sportsmanship, game rules, socialization and exploration through team spirit.
- **Gardening:** Children learn about the earth, nature and plant care, while having the opportunity to nurture their own "mini-garden."
- **Aquatics Program:** Children develop water safety skills and learn and/or improve their swimming abilities, while enhancing their peer relationships in a state-of-the-art water environment.
- **Music and Dance Groups:** Children engage in musical experiences to enhance fine and gross motor skills, compliance, joint attention as well as behavior, imitation of movement and rhythmic patterns, language skills and development of peer relations.
- **Arts and Crafts:** Children awaken their creative senses through hand, manipulative and texture exploration from initiation to completion of a project.

- **Cooking:** Children make “fun foods” to learn about taste, color, texture, and use of kitchen utensils in a highly social and safe environment.
- **Yoga Groups:** Children learn basic poses to improve flexibility, strength, breath support, imagination and focus in a fun environment.
- **Community Experiences:** Children venture out on weekly field trips to age-appropriate places to encourage carry-over of skills into a “real world” setting.

Dimensions Achievements in Therapy is an award-winning multi-disciplinary practice, founded by Robin Bersson in 1983. Dimensions Achievements in Therapy is a practice dedicated to giving a voice to the voiceless, dignity to infants, children and the elderly, empowering families in need and providing guidance for an improved future to those who are viewed as marginal by most of society. Bersson is a tireless advocate for the medically fragile and for children with a vast range of disabilities.

Much of her pediatrics practice is devoted to children who suffer from autism and autism-related disorders. Dr. Bersson is the director of speech pathology services at three Miami-Dade County hospitals and was awarded Best Practices by the Joint Commission for Accreditation of Hospitals for innovation in service delivery for individuals who are unable to eat or swallow.

Dr. Bersson is also the Director of Therapy for Casi’s Quest, the local TAAP chapter, and helps the organization guide individuals who are seeking therapy services. In 2003, Dr. Bersson was honored as a Concern Award finalist by the Health Foundation of South Florida and utilized the award to start a scholarship program for children with special needs to attend a summer camp program of their choice. For more than 25 years, Dr. Bersson’s dedication and refusal to ever give up on any person in need has made a real difference in our community.

Dimensions Woman

This woman has a dream to make the world a better place
 To wipe away the tears from every child's face
 To give hope to parents that would otherwise feel doom
 And bring the disabled to a place where they can bloom.

I have seen Dimensions Woman seize the moment -
 To bring forth utterances from a voiceless child
 That blossom into song for all to hear.

I've seen her reach into the shell of the tormented
 To find a cocoon- not a tomb
 Then witnessed its precious soul emerge
 To test its untried wings.

She moves in the light of faith calling forth miracles.
 I've seen the pain of love in her sparkling eyes.
 She glows, pregnant with unfaltering hope
 That humanity will be healed.

For Robin Bersson with love & gratitude,

©2004 by Linda Q. Demos

Blindly I Trusted

Blindly I trusted out of fear
Not heeding what I felt inside
Now a tormented spirit resides
In the shell where my little boy hides.

He doesn't call me Mama anymore.
He rocks from side to side, stares at the floor
I've been robbed of my choices and my dreams
Denied the awful truth about vaccines.

He hits himself, he bites himself, he doesn't feel the pain
Yet I feel it magnified-it eats me up within.
Wait, I think he looked at me as I was walking by
Perhaps I was mistaken, just something in his eye.

Don't think that I'll forget the little boy that I once knew,
Or that I will give up on bringing him back too.
My love will be the open door and God will be my guide,
He has the answers to retrieve the little boy inside.

©2000Linda Q. Demos

The Sanctity of Blood

Call it what you want
I call it damaging our kids!
ADD, ASD, Autism & SIDS
MS, Epilepsy, take your pick
All brought on by a poisonous prick.

The children are crying
They're rocking in pain
Many have died; some have gone insane
Vaccines required, but no law on the books
A money making scheme, a deadly hook.

The God of the Universe sees all
Those who kill will also fall
Justice will come like a mighty flood
As many more learn the sanctity of blood.

©2000Linda Q. Demos

The JAB

Oh my sweet darling, what have I done?
I was led to believe I was protecting you!
When I held you down firmly, I should've known.
No one warned the jabs would send you
to a world of your own
And you cried. Oh how you cried.

I phoned the doctor later that day,
She said, "He'll be fine in another day".
But he's running a fever, sounds like he's in pain!
She said, "If it continues call back again".
I cried. Oh how he cried.

They line their pockets at the expense of our pain,
Send us away again and again.
Say there's nothing they can do. After the jab,
it appears they are through.

I went to the city,
I went to the state,
I went to the Capitol but it was too late.
The lies filled the halls, their stench in the air.
It was evident they didn't care.
They pretended to be unaware.

Don't cry little one. There is hope, you will see!
Many are forces to awaken like daddy and me.
We are raising our voices and fighting dear son,
Til children are safe, everyone
Til this war for our children is won.

Rest now, don't forget your prayers.
Thank God in Heaven for those who care.
Those who stand in the face of adversity,
Those few left with integrity.
That our children be safe, everyone,
Til this war for our children is won

The New Book from Dr. Sherri J. Tenpenny

FOWL! Bird Flu: It's Not What You Think

Unflinching, thoroughly researched, and bound to be controversial, FOWL! will change forever the way you view environmental policy, the pharmaceutical industry, and the government's role in the dissemination of public health information. You will have a new understanding of what Bird Flu is really about.

With investigative reporting unprecedented for a practicing physician, Dr. Sherri J. Tenpenny, author of *Vaccines: The Risks, The Benefits, The Choices, A Resource Guide for Parents*, looks beyond the hysteria and exposes the vested interests poised to exploit the fear being generated by the bird flu virus.

FOWL! explains how:

- Health officials appear to be deliberately inflating avian flu morbidity statistics to frighten the public.
- The pharmaceutical industry is using the bird flu scare to revive the vaccine business, and why the vaccine currently under development is not only extremely toxic, but is almost certainly the wrong one!
- Government agencies are embracing elaborate "risk communication" plans to ensure the cooperation of citizens potentially faced with quarantines and mandatory vaccinations.
