ABSTRACT

Millions if not billions of people now believe that the world is under a bioweapons attack. A lot of blame has been placed on the US funding of bioweapons. Dr. Anthony Fauci, Director of the US NIAID/NIH has come under severe criticism for funding the infamous "Gain of Function" research. Many believe Fauci has not acted alone or even on his own accord. The Author worked as a fellow at NIAID/NIH from 1988 to 1991, starting soon after Fauci became head of NIAID. The author witnessed first hand infiltration of NIAID/NIH by Israel's Mossad. While working at NIAID/NIH one or more coworkers expressed a need to "preempt the next Jewish Holocaust". For thirty years since leaving NIH the Author has paid close attention to Mossad's involvement in illegal US bioweapon activity and attempts to disclose his observations. The Author hopes to educate the public on the current bioweapon attack with COVID-19 and vaccines. The Author believes that Mossad intends to kill billions of people. Already 70% of the world's population have received a COVID-19 vaccine which in all appearance has the ability to cause deadly non curable prion disease. The Author hopes the information provided will help those interested in ending this covert war.

Introduction

Dr. Anthony Fauci announced he will retire from his position as Director of NIAID, NIH in December of 2022. Fauci has come under criticism for funding research that could be used for bioweapons production included the infamous "Gain of Function" research. Many have surmised that Dr. Fauci could not have acted alone. Dr. Fauci became Director of NIAID around 1986 and the Author started a 3-year fellowship at NIAID in 1988. The Author worked in the Laboratory of Immunology, which was run by Dr. William E. Paul. Dr. Paul was considered a mentor to Fauci and a onetime senior administrator of NIAID under Fauci. While working at NIAID the Author realized that as of 1988, NIH had been highly infiltrated by Israeli's Mossad. To the Author's knowledge the Mossad leader at NIH was Israeli national Zami Ben-Sasson, who worked across the hallway from the Author. Based on the Author's observation from 1988 to present, Mossad has been using NIH for development of bioweapons on NIH campuses, funding bioweapons development at other locations and training US citizens to become bioweapons experts for Mossad. Israel never signed the 1972 Biological and Toxin Weapons Convention and the Author provides evidence to indicate Mossad, using US human

and material assets, is running a large genocidal bioweapons attack on the world.

The Author's morbid assessment is made based on 30 years of following Mossad activities in the medical research field, starting in 1988 at NIAID/NIH. The scenario is based on the Author's observation of Zami Ben-Sasson, close personal colleagues of Dr. Ben-Sasson at NIAID/NIH, and very suspicious activities of others who have worked at NIAID or elsewhere in the US government. Confirmation of this illegal bioweapons activity is further supported by observations related to another well-known Mossad operative, blackmailer Jeffery Epstein and his contacts in the biomedical research industry.

Mossad operative Jeffrey Epstein had strong ties in biomedical industry consistent with Mossad's desire to develop and use bioweapons as a means of mass destruction. Mossad is not interested in curing cancer or any disease, it does look for ways of killing people that resembles a natural death. Research on cancer inducers, prions, deadly viruses, toxic molds, immune suppressors and vaccines that cause infertility have been linked to Mossad.

Many have published on Epstein's blackmail operation which he ran for Mossad using under aged girls [1-5]. Epstein's partner Ghislaine Maxwell also has extensive ties to Mossad. Maxwell's father, Bob Maxwell has been widely regarded as a top Mossad operative who received a state funeral in Israel on his death [6-8]. Jeffrey Epstein kept a book of contacts that can best be described as a list of Mossad assets. The fact that Epstein decided to keep their contact information handy supports the obvious, those listed in the book provided some assistance to him. Some listed in the book including Bobby Kennedy Jr., and Michael Bloomberg are linked to activities that relate to COVID-19 as discussed below. The Epstein address book and the accompanying flight log have been published in their entirety online [9,10].

NIAID/NIH 1988-1991

The Author started a three fellowship at NIAID/NIH in Bethesda, Maryland in July of 1988. He worked in the Laboratory of Immunology, led by Dr. William E. Paul. Dr. Paul had recently returned to the lab after taking a short hiatus to be a senior administrator of NIAID for Dr. Anthony Fauci. Dr. Paul had been at NIAID for a long time and was considered a mentor to his younger, Dr. Anthony Fauci. Dr. Fauci's activities are discussed below [11]. It was in the Laboratory of Immunology, NIAID that the Author worked across the hall and got to know Israeli national Dr. Zami Ben-Sasson.

On the US holiday, President's Day of 1991, the Laboratory of Immunology was initially almost empty except for the Author and Dr. Zami Ben-Sasson. Upon entering the lab's corridor and upon seeing Dr. Ben-Sasson standing at the opposite end of the hall, Dr. Marshall Plaut shouted "Hey Zami, I heard you work for Mossad". Dr. Ben-Sasson could be heard frantically running down the hall to meet Dr. Plaut. Outside of the Author's door but hidden from sight, the Author heard Dr. Ben-Sasson tell Dr. Plaut three times that he must not reveal to anyone Dr. Ben-Sasson's link to Mossad.

Dr. Ben-Sasson worked directly under Dr. Paul as a foreign scientist. Typically grants provided NIH training for foreign citizens for a few years. The scientist lives in the US for several years, traveling home on short vacations. Dr. Ben-Sasson's tenure was unique at the time, he stayed in the US for several months then returned to Israel for several months. He kept up this cycle for duration the Author was at NIAID. There were other Israeli nationals working at NIH at the time, but the interactions observed by the Author lead the Author to believe Dr. Ben-Sasson was senior to them.

Based on observations and conversations with Dr. Ben-Sasson the Author has formulated the following points. Dr. Ben-Sasson's identity as a Mossad operative was known at NIAID among many Jewish scientists of US citizenship. In 1991 Dr. Plaut worked in a non-tenured position having recently left Johns Hopkins University. Dr. Plaut was an outsider of sorts and was late in hearing office gossip. Someone had told Dr. Plaut of Dr. Ben-Sasson's Mossad connection so multiple people must have known. Dr. Ben-Sasson was treated like a Mossad boss at NIH. Dr. Ben-Sasson appeared

to be given a card blanc in the Laboratory of Immunology when it came to receiving precious handmade reagents, monoclonal antibodies and the like. Typically, these reagents took months to manufacture and would be given in small amounts under special circumstances. Researchers' willingness to help Dr. Ben-Sasson was not limited to the Laboratory of Immunology. Dr. Ben-Sasson was frequently seen, much more than normal, walking about the large NIH Building 10, returning to our lab with a cup full of dry ice and test tubes. Dr. Ben-Sasson would often be in a rush home to meet his roommate before his roommate went to work. Dr. Ben-Sasson's roommate worked at the Israeli Embassy at night and was Dr. Ben-Sasson's daily link to the Israeli Embassy.

During the timeframe the Author was at NIAID, 1988 to 1991, the cold war was ending, the Berlin Wall fell, and Germany was reunited. There was talk in the Laboratory of Immunology that with the unification of Germany there would be another Jewish Holocaust. There was open talk about the need to "preempt the next Jewish Holocaust". It is the Author's belief that this is a major motivator for the bioweapon's activity at NIAID as discussed below.

Mossad, Dr. Fauci, and the Anthrax Attack

In 1999 there were several Congressional hearings on vaccine adverse events. The Author was an expert for both a hearing on the hepatitis B vaccine run by representative John Mica and a later hearing on the anthrax vaccine run by representative Dan Burton. The Burton hearing held on October 12, 1999 on the anthrax vaccine was entitled DEFENSE VACCINES: FORCE PROTECTION OR FALSE SECURITY? [12] In that hearing Representative Henry Waxman, an US Congressman and Israeli citizen [13], advocated giving the anthrax vaccine because of the threat of a future terrorist attack.

Mr. Waxman.: "And what we're talking about is a vaccine that can, we would hope, be able to counter a terrorist activity".

Waxman debated the Author in an attempt defended the safety of the anthrax vaccine. Waxman cited information provided by Dr. Regina Rabinovich who worked at Mossad infiltrated NIAID. Rabinovich would eventually leave NIAID and later held a position as Director of the Infectious Disease program at the Bill and Melinda Gates Foundation. Bill Gates is famously associated with Mossad operative and blackmailer Jeffery Epstein [14].

Two years after the Burton hearing Waxman's prediction of an anthrax attack occurred. The attack occurred starting one week after the airplane attacks on 9/11/2001. Envelopes filled with anthrax were sent to several high-profile people. The envelopes contained letters incriminating Muslims for the attack. After the attack Dr. Anthony Fauci went to Congress and presented at a congressional hearing officiated in part by US Congressman and Israeli citizen Henry Waxman entitled: BIOLOGICAL WARFARE DEFENSE VACCINE RESEARCH AND DEVELOPMENT PROGRAM, October 23, 2001 [15]. The outcome of the hearing was Fauci raised billions of dollars for bioweapon "defense" to be conducted

at his Mossad infiltrated NIAID. According to the Wall Street Journal [16] NIAID's annual budget for bioweapon research went from \$42 million a year in 2001 (prior to the anthrax attack) to \$1.2 billion in 2003 and \$1.7 billion in 2005.

In 2008 the FBI investigation determined that the anthrax in the envelopes likely originated at the US bioweapons facility, Fort Detrick. A Zionist named Bruce Ivins [17,18] was implicated in the US anthrax attack, but died from alleged suicide before a confession was ever obtained. Ivins, in a letter he wrote, proclaimed "By blood and faith, Jews are God's chosen, and have no need for 'dialogue' with any gentile." [19] The FBI agent in charge of investigating the attack, Richard Lee Lambert, complained that higher ups at the FBI had tried to hinder his investigation and prematurely closed the case just as they began to make progress. Lambert filed an Qui Tam suit [20] against senior US officials including Attorney General Eric Holder and Robert Muller III and described the actions that impeded his efforts to bring those responsible to justice.

The Author notes that while Fort Detrick is partially military bioweapons base it also contains a large NIH campus. During the Author's fellowship at NIAID/NIH in Bethesda, Maryland there were frequent interactions between scientists at the main NIH campus in Bethesda and the satellite facility at Fort Detrick, less than a 45-minute drive away. Graduating fellows from the Bethesda campus obtained jobs at the Fort Detrick campus. Mossad assets in Bethesda had clear access to the scientists working at Fort Detrick.

The link between Dr. Anthony Fauci/NIAID and Mossad has not gone unnoticed by others. Many have commented on the link between Dr. Anthony Fauci and Bill Gates. Bill Gates was a close associate of Mossad operative Jeffrey Epstein [14]. According to a report [11] Dr. Anthony Fauci was appointed to the Bill and Melinda Gates Foundation's Global Grand Challenges Scientific Advisory Board (served through 2010). Dr. Fauci is (was) on the Leadership Council of the Bill and Melinda Gates Global Vaccine Action Plan [11]. Furthermore Dr. Fauci has been on the World Health Organization's Global Preparedness Monitoring Board [11]. The WHO receives substantial money from the Bill Gates through his foundation as discussed below.

SARS, MERS, and Covid Development

Due to the greatly enhanced bioweapon "defense" budget obtained by Mossad infiltrated NIAID/NIH after the Fort Detrick lead anthrax attack on US citizens, NIAID had resources to fund extensive bioweapon research. Coronavirus, ie SARS, avian flu, smallpox, and ebola were specific bioweapon related infectious agents targeted by federal funds after the Fort Detrick linked attack on US citizens [21]. However, NIH had been funding similar work prior to this in a smaller scale [16].

SARS was the first to threaten the health of the world population after the US anthrax attack of 2001. The SARS outbreak occurred in 2002 in China. Dr. David E. Martin compiled a list of alleged

bioweapons violations on Mossad infiltrated NIAID/NIH. In Martin's publication [11] he provides the following introduction *"Over the past two decades, my company – M-CAM – has been monitoring possible violations of the 1925 Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous, or other Gases, and of Bacteriological Methods of Warfare (the Geneva Protocol) 1972 Convention on the Prohibition of the Development, Production, and Stockpiling of Bacteriological and Toxin Weapons and Their Destruction (the BTWC)."*

Martin elaborated on the NIAID/NIH funding of the infamous Baric research. *"On April 19, 2002 – the Spring before the first SARS outbreak in Asia – Christopher M. Curtis, Boyd Yount, and Ralph Baric filed an application for U.S. Patent 7,279,372 for a method of producing recombinant coronavirus. In the first public record of the claims, they sought to patent a means of producing, "an infectious, replication defective, coronavirus." This work was supported by the NIH grant referenced above and GM63228. In short, the U.S. Department of Health and Human Services was involved in the funding of amplifying the infectious nature of coronavirus between 1999 and 2002 before SARS was ever detected in humans."*

"Dr. Baric's expertise was understanding how to modify components of the coronavirus associated with cardiomyopathy. NIAID Grants AI 23946 and GM63228 (leading to patent U.S. 7,279,327 "Methods for Producing Recombinant Coronavirus") was the NIH's first Gain-of-Function (GOF) project in which Dr. Baric created an "infectious, replication defective" clone of recombinant coronavirus. This work clearly defined a means of making a natural pathogen more harmful to humans by manipulating the Spike Protein and other receptor targets. A year after filing a patent on this GOF CoV, the world experienced the first outbreak of Severe Acute Respiratory Syndrome (SARS).

One key facet of the Mossad infiltrated NIAID/NIH research was developing a defense to a weaponized coronavirus. Research included using measles vaccine virus as protection against these deadly coronaviruses [22]. This is an important fact given the widespread measles vaccination in Israel and Jewish schools in the US in 2018 prior to onset of COVID-19 [23] as discussed below.

Swine Flu, Mossad's Trial Run for COVID-19

In January of 2011 the Author was invited to present at a "vaccine conference" in Jamaica. Upon arriving the Author became highly suspicious the "conference" was really a Mossad operation. The Author was conditioned to challenge stated agendas in part by his cousin Jeffrey Jones. Jones had been a top spy for the US and was President of the Alumni of the OSS, the former name for the CIA. Jones, whose true paternal family name was Talbot, was heir to the first Earl Talbot and Lord High Steward of Ireland. Jones' family had been running overt and covert military operations successfully for 1200 years and taught the Author some of the family trade. Upon arriving home from Jamaica, the Author immediately performed an internet search to determine why Mossad was interested in vaccines. The Author found multiple reports relating to Mossad informant Joseph Moshe [24-26] and his revelation

that Mossad was planning on using vaccines as carriers for bioweapons. Mossad's plan, according to Moshe, was to disguise bioweapons as beneficial vaccines and have targets literally lining up and begging to be given a bioweapon.

Dr. Joseph Moshe was, he has not been heard of since his capture, a Jewish American virologist who studied a number of potential deadly microbiotic agents [26]. According to reports, in 2009 [24-26] *"Professor Moshe had called into a live radio show by Dr. A. True Ott, broadcast on Republic Broadcasting claiming to be a microbiologist who wanted to supply evidence to a States Attorney regarding tainted H1N1 Swine flu vaccines being produced by Baxter BioPharma Solutions. He said that Baxter's Ukrainian lab was in fact producing a bioweapon disguised as a vaccine."*

Moshe's revelations are not the first time that vaccines have been allegedly used as a means to deploy bioweapons. There have been allegations that tetanus vaccine bound with human chorionic gonadotropin (HCG), to induce infertility, was given to unsuspecting poor women living in third world nations. These reports started to surface in the 1990s and have included the Philippines and Mexico [27], and more recently Kenya [28]. Allegations have been linked to the World Health Organization which has been criticized for its strong financial connections to Mossad operative Jeffrey Epstein's associate, Bill Gates. It is no secret that the WHO developed such a vaccine to prevent pregnancy. The controversy relates to the fact that a vaccine resembling the WHO infertility vaccine was given to women who were told they were being immunized against tetanus. One of the reasons suspicions were raised is that tetanus boosters are given once every 10 years while the WHO funded "tetanus" campaigns involved only women of child bearing age and a series of several shots was given in a short period of time. Laboratory tests have confirmed HCG in the "tetanus" vaccine.

Pre COVID-19 Attack: SPARS 2017 and the Measles Epidemic of 2018

There were several important events that occurred prior to the outbreak of COVID-19 that many find too convenient to be dismissed as coincidences. These include the Bloomberg School of Public Health publishing in 2017 on a "hypothetical" coronavirus outbreak called SPARS and an measles epidemic in Israel in 2018.

In October of 2017 the Johns Hopkins Bloomberg School of Public Health published a manuscript related to a hypothetical coronavirus pandemic, SPARS-CoV [29]. The manuscript describes a hastily created vaccine which was ready in less than 10 months from the outbreak. The manuscript go into detail on methods used to promote the poorly tested vaccine. The vaccine was later found to have neurological side effects, resembling prion disease, and law suits arose. Social media has been ablaze with the obvious similarities between the "hypothetical" coronavirus SPARS and the following coronavirus COVID-19 bioweapon attack described below.

Suspicion related to the SPARS manuscript in part relates to Michael Bloomberg, the namesake and a major financial supporter of the Bloomberg School of Public Health. Bloomberg was listed

in Mossad operative Jeffrey Epstein's book of Mossad assets [9]. Bloomberg also has been associated with Jeffrey Epstein when it was disclosed their foundations were both involved in funding charter schools in New York City [30]. The schools were a potential source of children to use in Mossad's pedophile blackmail scheme. Bloomberg also had links to Epstein's partner in crime, Ghislaine Maxwell [31]. The Bloomberg School of Public Health has been linked to the WHO infertility vaccine project [32]. This is the same WHO project that has been accused of being a bioweapons operation, sterilizing unsuspecting poor women living in the third world nations [27,28].

In the Fall of 2018, the Author was contacted by members of the Baltimore Orthodox Jewish community and asked to investigate why Jewish schools in Baltimore were no longer accepting almost any vaccine exemptions. Many Jewish parents were concerned about the possible link between the MMR vaccine and autism. Prior to 2018 these schools allowed parents to take vaccine exemptions. The Author spoke to numerous Orthodox Jews in the Baltimore area and read news reports on similar vaccine policy changes in the vast majority of Jewish schools in the US. A small measles epidemic occurred in Israel in the 2018-2019-time frame leading to mass immunization against measles in Israel and then in US Jewish schools including those in New York [33,34]. The pursuing vaccine controversy culminated in several individuals that the Author realized were linked to Mossad entering the debate, including Bobby Kennedy Jr. [35].

In early 2019 the Author reported back to those Orthodox Jews, who had asked for his help and replied that there was nothing he could do as the activities he observed indicated Mossad was initiating a major bioweapons attack. As it turns out the measles mumps rubella vaccine (MMR) forced upon the Jewish community actually protects against COVID-19. This fact was likely known based on vaccine research funded by Mossad infiltrated NIAID/NIH [22]. The Author published the initial peer reviewed paper on the ability of the MMR vaccine to prevent COVID-19 [23] and the Author's conclusions has been confirmed by research from many large universities [36-38].

Start of COVID-19

The Author understood Mossad had infiltrated NIAID/NIH and was scheming a large bioweapons attack. He understood that Mossad intended to "preempt the next Jewish Holocaust" and planned genocide on a large number of ethnic groups including in the US. The Author understood, from reading about Joseph Moshe and working in the vaccine field that vaccines would likely be used as a carrier for bioweapons. In order to carry out this plan Mossad would likely benefit from controlling the FDA to ensure the bioweapon contaminated "vaccines" received regulatory approval.

In early 2019 Dr. Scott Gottlieb was Commissioner of the FDA [39]. He was appointed in 2017 by then President Trump, an close associate of Mossad operative Jeffrey Epstein. That fact alone would make Gottlieb a person of interest. Dr. Scott Gottlieb was a protégé of super spy and Mossad asset, Buzzy Krongard who

is mentioned in detail below. Gottlieb worked under Krongard at Alex Brown [40]. This fact would raise suspicions to an even higher level. Gottlieb devoted a lot of effort while running the FDA to emphasize that vaping/ e cigarettes were very dangerous [39].

Dr. Scott Gottlieb abruptly announced in March of 2019 that he was resigning his position as Commissioner of the FDA after approximately 2 years [39]. It was this sudden departure that led the Author to believe that the Mossad bioweapon attack had begun and the Author frantically informed intelligence agencies around the globe that a Mossad bioweapon attack had begun.

There are numerous “coincidences” that support that the Author's opinion that the COVID-19 outbreak began in March of 2019. First the genetic sequences for the coronavirus causing COVID-19 were retrospectively detected in samples of sewer water collected in Spain as early as March of 2019 [41]. People who vaped mysteriously started to develop a clinical disease, EVALI, resembling COVID-19 [42]. Young vapers were on ventilators in significant numbers starting in April of 2019. Unfortunately doctors simply believed these young adults suffered from a vaping disease, as warned by FDA Commissioner Gottlieb, and did not suspect the THC they were vaping had been spiked with a deadly coronavirus. Also, on March 28, 2019 Moderna filed a patent application that would later be granted as its infamous coronavirus patent, U.S. Patent 10,702,600. The patent has been criticized on social media as being suspect because people believed the application was filed before the outbreak of COVID-19.

Starting in June of 2019, two months after intelligence agencies around the world had been warned that a major Mossad bioweapons attack was under way, certain events occurred consistent with a major attack. Fort Detrick, the US Army's bioweapon base and source of the US anthrax attack, was shut down in June of 2019 [43]. Mossad operative Jeffrey Epstein was re-arrested in July of 2019 [44]. Epstein had already served time in a Florida jail for his crimes. Dr. Suzanne Eaton, wife of an Israeli born prion expert, was brutally killed in a cave around July 3 of 2019 [45]. The details of the brutal death provided by the widespread media coverage gave an appearance to the Author that a message was being sent to would be Mossad informants. The first retirement / nursing home to have an outbreak of COVID-19 like symptoms was the Greenspring facility in Fairfax County, Virginia where at least 63 residents were stricken with COVID-19 like symptoms by July 15th 2019 [46].

The coronavirus causing COVID-19 utilizes the spike protein to attach to cells in order for it to infect the cells. One receptor on human cells for the coronavirus spike protein is a protein called ACE-2. There is genetic variation in the ACE-2 protein that affects binding of the spike protein. A paper looking at racial variants of ACE-2 with affinity for the spike protein stated [47]. “*ACE2-K26R; which is most frequent in Ashkenazi Jewish population decreased the SARS-CoV-2/ACE2 electrostatic attraction*”. According to the results in this paper the coronavirus causing COVID-19 resembles a race specific bioweapon that spares the

Ashkenazi Jewish population but preferentially binds to that race Mossad blames for the 1940s Jewish Holocaust, Europeans.

Much of the main stream media has focused on a possible lab leak from Wuhan. The Author does not find this surprising given the connection between main stream media and Mossad. Mossad thrives on false flag events. The anthrax letters from 2001 incriminated Muslims when in fact the anthrax was linked to a Zionist at Fort Detrick. People with an understanding of molecular biology understand that asking where the coronavirus causing COVID-19 was made is equivalent to asking where a peanut butter and jelly sandwich was made. The molecular biology is quite simple and components of the viral genome (similar to bread, jelly, peanut butter) can be synthesized in a piecemeal fashion quite safely. The final construct could have been completed anywhere; a high-tech bioweapons facility is not essential. An abandoned mine shaft would work well. The lab equipment needed is readily available. Junk dealers sell used lab equipment obtained from defunct biotechnology companies and from government labs which discard functional equipment when newer models become available. One must remember that bioweapons have been developed in the past, World War 2, without the high-tech isolation facilities used today. While the Author admits Mossad is likely to have operatives in China, the China lab leak theory does not explain the dangerous and suspicious activity of non -Asians in developing and mandating deadly COVID-19 vaccines.

COVID-19 Vaccines and Translational Medicine

The Author became concerned about the safety of the COVID-19 vaccines from the beginning and published his first of many papers warning about the risk of COVID-19 vaccines [48]. Mossad informant Dr. Joseph Moshe warned that Mossad had been planning to use vaccines as carriers for bioweapons as described above. Moshe's revelations about swine flu vaccines had all the characteristics of a dry run for the COVID-19 attack given the similarities of clinical symptoms between influenza and coronavirus infections. Moshe's revelations, as described in a section above, were also consistent with accusations of using weaponized tetanus vaccines as bioweapons to clandestinely sterilize unsuspecting women [27,28].

The Author has published [49] that the clinical trials for the first three COVID-19 vaccines, released by the FDA under Emergency Use Authorization, caused more severe disease than they prevented using the appropriate scientific endpoint of all cause severe morbidity. The trials were thus all failures and the COVID-19 vaccines should not have been allowed on the market! Instead, Dr. Anthony Fauci has relentlessly promoted immunization with COVID-19 vaccines.

The Author noticed that many he knew with Mossad affiliations began self-associating with the term transformative or translational research/medicine. The definition of translational and transformative research is similar. For example, Dr. David Agus who shared work space with Mossad operative Zami Ben-Sasson at NIAID/NIH is listed as the “Founding Director and CEO of USC's Lawrence J.

Ellison Institute for Transformative Medicine” [50]. The Author notes that many of the “inventors” of COVID-19 vaccines self-identify with translational medicine/research. For example, Ugur Sahin of Biontech is credited with “In 2010, he co-founded TRON (Translational Oncology at the University Medical Center of Johannes Gutenberg University Mainz)[51]. Hanneke Schuitemaker, who is reported to have led the Johnson and Johnson/Janssen team in charge of their COVID-19 vaccine is reported to be the global head of viral vaccine discovery and translational medicine for Janssen Vaccines & Prevention [52]. The Oxford university web page for Sarah Gilbert, an inventor of the Astra Zeneca- Oxford COVID-19 vaccine, listed “Subject Areas: Translational Medicine and Medical Technology” [53]. The Moderna vaccine was made in collaboration with Mossad infiltrated NIAID/NIH [54] and Moderna also received funding from the Gates Foundation [55] All of these facts greatly concern the Author.

Prions

The Author was made aware of Mossad’s interest in using toxic proteins called prions as a bioweapon since his fellowship at Mossad infiltrated NIH/NIAID. There were frequent conversations among employees at the Laboratory of Immunology, NIAID/NIH about the deadly nature of prions. Prions act as slow poisons allowing large number of people to be poisoned before the plot can be discovered. The long delay between exposure and disease makes deniability easier.

The death of Suzanne Eaton [45] in July of 2019 first led the Author to suspect that the bioweapon attack of 2019 was prion based. Suzanne Eaton’s death was suspicious for many reasons. She was tortured in a cave for a long period of time, possibly 24 hours as if she was being interrogated. One or more reports suggested she had up to 200 stab like wounds. Dr. Eaton’s death received unprecedented news attention. The Author first saw reports of her death on local Baltimore news even though she was not from Baltimore and had not lived in the US for roughly 20 years or more. Dr. Eaton was the wife of an Israeli born prion researcher. Given the mysterious nature of her death, the unexplained media coverage, the link to an Israeli born prion expert, and Mossad’s interest in prions, the Author became very concerned that the Mossad bioweapon attack starting in March of 2019 was utilizing prions.

With the unexpected rapid approval of the mRNA Covid vaccines in late 2020, the Author started to determine if the vaccines may in fact be prion related weapons. The Author soon discovered that the Bill and Melinda Gates Foundation, and the Ellison Medical Foundation had funded prion research [56]. Bill Gates has been closely linked to Mossad operative Jeffrey Epstein. Larry Ellison has a strong partnership with Dr. David Agus who shared work space at the Laboratory of Immunology, NIAID/NIH with Mossad operative Zami Ben-Sasson. Dr. Agus is “Founding Director and CEO of USC’s Lawrence J. Ellison Institute for Transformative Medicine” [50] and is also a business partner for a resort at Ellison’s Lanai Island in Hawaii [57]. The island more closely resembles a paramilitary base than a resort because of its efforts to have sustainable food [57] and energy production [58]. The Island

boasts of celebrity visits resembling Jeffrey Epstein’s Island. Bill Gates got married on the island. Elon Musk, Tom Cruise and former Israeli Prime Minister Benjamin Netanyahu are a few celebrities who reportedly visited the Island [58]. Ellison has also been linked to the events surrounding 9/11 [59].

The prion research funded by the Gates and Ellison foundations relates to identifying RNA sequences that can induce certain proteins found naturally in the human body to take on prion configurations. These prion diseases include ALS, frontotemporal lobar degeneration, Alzheimer’s disease and other neurological degenerative diseases. By simply reading the published sequence of the Pfizer mRNA vaccine the Author discovered that there were many of these prion inducing sequences in the Pfizer mRNA COVID-19 vaccines [48]. The Author further found that at least one COVID-19 vaccine was associated with an increased risk of Parkinson’s disease [60], a prion related disease. Additional authors have confirmed that the spike protein, the active ingredient in COVID-19 vaccines, also contains amino acid sequences capable of inducing prion disease and have reported patients developing prion disease after receiving a COVID vaccine [61-63].

Confirmation that the Author was on the right path about the COVID-19 vaccines causing prion disease came almost immediately after publishing his paper [48] in early 2021. The Author’s paper was criticized on Twitter on February 22 and 28, 2021 by Wayne State University Surgeon David Gorski Md, PhD (@gorskon). Gorski has admitted publicly on Twitter (August 29, 2019; @gorskon) that he had financial ties to Mossad operative Jeffrey Epstein through Seed Media Group. The Author does not even remotely believe that Gorski’s criticism of the Author’s paper and Gorski’s financial ties to a Mossad operative are a simple “coincidence”.

WHO

The World Health Organization (WHO), has taken a lead in actions related to COVID-19 including promoting vaccination. However, the WHO is a highly controversial agency. One of the biggest criticisms is that Bill Gates, a frequent associate of Mossad operative Jeffrey Epstein, has been one of the largest sources of funding for the WHO. This raises the legitimate concern that Mossad may be weaponizing health care provided by the WHO [64]. Distrust of the WHO is not unfounded. The head of the WHO has been accused of being a war criminal among other things [65]. Many have accused multiple different WHO tetanus vaccine campaigns of being clandestine bioweapons attacks to sterilize women in the third world [27-28]. Many with knowledge of the WHO have little confidence in the organization and treat its policies with suspicion, much the way they do with Dr. Anthony Fauci’s policies.

The US Government, FBI and CIA

Many people take false comfort in believing that the US government would protect its citizens from an bioweapons attack of domestic origin. These individuals ignore the historical truths. For example, in the US while Presidents George Washington and Thomas

Jefferson advocated civil liberties and the pursuit of happiness, yet they owned slaves and conspired genocide of native Americans. Things are not much different now except the racial targets have changed. There is little doubt that Mossad has strong influence on US politics. Presidents Clinton, and Trump had strong affiliations with Mossad operatives Jeffrey Epstein and Ghislaine Maxwell. However, the link does not end with Presidents. Many in the US Congress as well as presidential appointees and career government officials have Mossad links.

A social media post claimed multiple senior Biden appointees were dual Israeli- US citizens. While the Author could not confirm this post, the Author found multiple articles from Israeli/ Jewish publications citing these same people as being Jews with assumed sympathy for Israel (66-68). These people include Secretary of State Anthony Blinken, CIA deputy director David Cohen, Attorney General Merrick Garland, Director of National Intelligence Avril Haines, Chief of Staff Ronald Klain, Office of Science and Technology Policy director Eric Lander, Secretary of Homeland Security Alejandro Mayorkas, National Security Agency cybersecurity director Anne Neuberger, and Covid-19 Coordinator Jeff Zients. Eric Lander admitted to meeting with Mossad operative Jeffrey Epstein at least twice [69]. The problem with this cabinet is that it creates a significant national security threat for a Mossad lead bioweapon attack on US citizens.

The FBI is entrusted with protecting Americans from internal threats but seems to look the other way when Mossad is the threat. The FBI reportedly gave Mossad informant Joseph Moshe to Israel, and he has not been heard of since [24,25]. As discussed above Moshe came forward to reveal Mossad was using poisoned “vaccines” to kill people. Even more damning is the revelations of Richard Lambert, the lead FBI agent involved in investigating the anthrax attack on US citizens in 2001. Lambert provided a detailed description of how senior FBI management tried to impede his investigation including closing the case prematurely after the first suspect, Zionist Bruce Ivins, was apprehended [20].

The CIA is responsible for helping combat terrorist attacks from foreign nations. However, many active or former CIA operatives appear to side with Mossad against US interests. Take for example Alvin “Buzzy” Krongard. Krongard is a good case example in part because of his ties to former FDA Commissioner Scott Gottlieb discussed above. Krongard reached the position of executive director of the CIA, the third highest ranking position at the CIA, [70] in 2001. Prior to taking the position Krongard worked embedding CIA operatives in US companies as cover for foreign assignments. While this activity would be highly classified, Edward Hale wrote about how he and his company were recruited to work for the CIA by Krongard while Krongard held positions at the CIA and at the Baltimore based investment bank Alex Brown [71].

Krongard has numerous Mossad connections. While at Alex Brown he raised money for Microsoft, run by Bill Gates a close associate of Mossad operative Jeffrey Epstein. After leaving the CIA Krongard was on the boards of several companies linked to

Mossad. Krongard was on the board of Apollo Global Management [72] which was run by Leon Black who had strong financial ties with Mossad operative Jeffrey Epstein and is listed in Epstein’s book of Mossad assets [9]. Krongard was also on the board of Eric Prince’s corporation, previously named Blackwater Security Consulting [70], and Prince also had strong ties to Israel intelligence [73]. Krongard’s relationship to Blackwater came into scrutiny and was investigated by US Congressman and Israeli citizen Henry Waxman [70] whose own actions regarding the anthrax attack are discussed above. One would expect that a former senior most leader of the CIA would not be tricked into separately working under two Mossad assets, Black and Prince, involved in dubious acts. Krongard must then be considered a Mossad asset himself. Krongard’s biggest scandal may have been his ties through Alex Brown to bets on the decline of American Airlines’ stock shortly before the hijackings on 9/11/2001 [70]. There has been substantial evidence that Mossad played a role in the 9/11 twin tower attack [74-76]. Mossad’s alleged involvement in the airplane attack mirrored the Zionist anthrax attack originating at Fort Detrick one week later. It is well known that agents of intelligence services use insider information to profit from their knowledge.

Krongard’s link to the German company Deutsche Bank is also of great concern. Mossad targeted Deutsche Bank because Deutsche Bank financed the building of Holocaust death camp Auschwitz during World War 2 [77]. Krongard, whose specialty was embedding operatives in companies while working for Alex Brown eventually came to run Alex Brown. Krongard oversaw the sale of Alex Brown to Bankers Trust in September of 1997 which shortly afterwards was bought by Deutsche Bank in June of 1999 [78]. After the merger Deutsche Bank began to financially implode by a series of bad investments [78], as if Mossad operatives were now working for Deutsche Bank and sabotaging it. Deutsche bank came to fund Mossad operative Jeffrey Epstein [79] and his companion Donald Trump. Deutsche Bank funded Trump at a time when few would lend to him because of prior financial difficulties [80].

Deutsche Bank began to act like a Mossad operation as it became involved with many alleged criminal acts. As the criminal investigations started to pile up several people under investigation were found dead and presumed to have committed “suicide”. The numerous Deutsche Bank suicides did not go unnoticed and was the source of several publications [80,81]. The suicides created suspicions in a manner similar to the suicides of Jeffrey Epstein and Bruce Ivins of anthrax fame. Finally, there was a botched murder attempt at the house of US judge Esther Salsa who was overseeing a trial related to Jeffrey Epstein and Deutsche Bank. The attack resulted in the death of one of the judge’s family members. The alleged assailant, Roy Den Hollander, was found dead with the cause of death presumed suicide. Hollander had alleged ties to Israeli intelligence [82]. The chain of events started with CIA operative and Mossad asset Krongard’s involvement. The point is US government officials act as if they favor Mossad over US citizens which is not surprising given numerous dual Israeli- US citizens in US government.

World Economic Forum (WEF)

The World Economic Forum (WEF) meets annually in Davos Switzerland. The WEF has come under scrutiny in the social media for its stances and actions related to the COVID outbreak. The WEF has strong links to Mossad and some question if it is indeed a Mossad front. Dr. David Agus, who worked alongside Mossad operative Zami Ben- Sasson at NIAID/NIH, is listed as having strong ties to the WEF [50].

“Agus chairs the Global Agenda Council (GAC) on Genetics for the World Economic Forum, and speaks regularly at TEDMED, the Aspen Ideas Festival and the World Economic Forum.”

Numerous politicians linked to Mossad are affiliated with the WEF. For example, US presidents linked to Mossad operative Jeffrey Epstein have allegedly attended and even presented at the WEF meetings. George Soros' name is commonly associated with the WEF. George Soros is also associated with Epstein's associate Bobby Kennedy Jr. discussed below.

Psyops

Mossad has a long history of running psyops. In the Author's opinion possible 50% or more of those highly publicized for opposing government COVID-19 policies actually work for Mossad. Mossad controls both sides of the COVID-19 dialog to ensure maximum effect. The Mossad operatives opposing COVID-19 policies act to ensure Mossad does not get blamed for the COVID-19 attack. The Mossad operatives opposed to COVID-19 policies, such as COVID-19 vaccination mandates, act to deflect suspicion to non-Mossad parties including Chinese, Russians, Iranians, DARPA, “Elites”, “Deep State Operatives”, “Big Pharma”, “Illuminati”, “Masons” and even bats. A second function of these operatives is at times to self-destruct by releasing bizarre messages and thereby reducing credibility to the original credible message they had been supporting.

Take Robert (Bobby) Kennedy Jr. for example. In 2017 his name appeared as a possible chair of a Trump "vaccine safety and scientific integrity" commission [83]. On the outside Trump and Kennedy seemed like an odd team, a Conservative President elect choosing a liberal Democrat to run a commission for him. However, one only needs to consider that both had a strong connection to Mossad operative Jeffrey Epstein to become suspicious of alternative motives for their relationship. Multiple Kennedy family members including Bobby Kennedy Jr. and mother Ethel Kennedy are listed with Donald Trump in Jeffrey Epstein's book of Mossad assets [9]. Bobby Kennedy Jr. was reported to be at Mossad operative Jeffrey Epstein's Palm Beach estate according to court documents related to one of Epstein's legal suits [84]. Social media is full of links between Epstein and Kennedy. In all appearances Bobby Kennedy Jr., like Donald Trump, had a long relationship with Mossad operative Jeffrey Epstein. Kennedy also told the Author that he was close personal friends with George Soros, who has strong ties to the World Economic Forum. Bobby Kennedy Jr.'s recent book [85] attacks Anthony Fauci as a villain of sort but “conveniently” blames Fauci's actions on large pharmaceutical money and not the Mossad organization that infiltrated NIAID.

Mossad uses operatives opposed to government COVID-19 policies, in particular vaccination, to infiltrate groups opposed to vaccination and to actually discredit their message. Mossad's technique includes layering messages. For example, an operative linked to Mossad may gain extensive social media attention claiming COVID-19 vaccines are dangerous. The operative will get the support of groups that oppose COVID-19 vaccination. The operative will then layer on a non-credible message, for example the COVID-19 vaccines will turn people into “Robots”. The general public will then discredit the operative and the original message that COVID-19 vaccines are dangerous. Furthermore, groups and individuals that initially promoted the operative will lose credibility. Based on observing numerous social media posts on the COVID-19 vaccine debate the Author believes at least 50% of the most publicized individuals who oppose COVID-19 vaccines are actually working for Mossad. Furthermore, in all appearance Mossad is actually running the large public gatherings that features these Mossad operatives as keynote speakers!

The use of “Fact Checkers” has been criticized by many on social media as a psyops operation. It is more than just a concern to the Author that many “Fact Checkers” are promoting a Mossad agenda. Take for example the “Fact Check” response to one of the Author's papers by Science-Based Medicine. Dr. David Gorski, who admitted having financial ties to Mossad operative Jeffrey Epstein, holds a position as Editor for Science -Based Medicine (twitter @gorskon).

Monkeypox

The recent Monkeypox outbreak has been met with considerable suspicion about being a bioweapon attack. Monkeypox virus has been known for decades without causing significant widespread outbreaks. Prior to the May of 2022 outbreak of Monkeypox in Europe there was a publication released [86] in November of 2021 describing an exercise to counter an “hypothetical” Monkeypox outbreak. The publication raised suspicions on social media for its similarities to the SPARS publication that was released prior to the COVID-19 outbreak [29]. In the Monkeypox publication [86], the authors “hypothesized” about a bioterrorism attack starting in May of 2022, the exact month when the actual Monkeypox outbreak started in Europe. The main global response to the Monkeypox epidemic is to vaccinate with a vaccine developed by Bavarian Nordic. Bavarian Nordic received large sums of money from Mossad infiltrated NIAID [16].

Conclusion

Millions if not billions of people now believe the world is under a bioweapon attack. Many people have criticized US government funding of gain of function research, bioweapons lab in the Ukraine and bioweapons experimentation at Fort Detrick. The Author trained at NIAID from 1988 to 1991 and personally witnessed Mossad infiltration of NIAID/NIH. It is the Author's belief that NIAID/NIH was infiltrated not only to gain access to the large NIH budget but to use NIH as a training facility for young Jewish scientists who want to join Mossad's bioweapon operations. The Author has followed the activities of those he knew through NIH

and others he has meet in the vaccine field in the 3 decades since leaving NIH. His observations are included above. The Author's view is that we live in a very dangerous world and Mossad will not stop its satanic and murderous ways until we, the human race, stop them.

One of Mossad's many defenses is to play the "anti-Semitic" card. If one criticizes Mossad's activities one must be "anti-Semitic". The reasoning is quite hollow and many Jews the Author has spoken to say that Mossad controls one or more anti-defamation organizations. To clarify the Author's position, Mossad is not a threat just to gentiles but also to most Jews. Many of the Author's Jewish friends who took the COVID-19 vaccines were not aware of the dangers. To the Author's knowledge Mossad never warned the rank-and-file Jews in the US of the dangers of the COVID-19 vaccines. Furthermore, while Mossad is run by Jews it has many, many non-Jewish members. Mossad recruits' people of all races who share Mossad's core values: love of money, love of drugs, love of sex, love of power, love of genocide and even a shared ideology of Zionism. A look at Jeffrey Epstein's book of Mossad assets as well as his flight log will reveal a long list of wealthy and famous non-Jewish conspirators/ Mossad assets. It is hoped that this paper will inspire others to take action against this organization while they still can. Mossad's plan for a New World Order and Great Reset is mirrored after a previous attempt, the Bolshevik Revolution in Russia. The upheaval which did not end well for the people of Russia, including most senior communist party leaders under Stalin!
