

My late husband Gary Tunsky's website was pHcelltox.com for a company named Precision Healing Cell-utions, which we were co-owners of and now is owned by myself April Renée Oakes. We traveled all over the world for almost 15 years presenting on the cause and solutions to all dis-ease "labels", given by the drug companies. We called my presentation the "Appetizer" and his the "Meal!"

We were also co-owners of VIC Fellowship and it stands for Vaccine Information Coalition, in honor of the loss of my 1st child Casi Renée Oakes who passed away at 4 years old in 1999. Casi was injured by her childhood vaccines and "labeled" autistic. I started Casi's Quest when I discovered the vaccines had injured her, which was the Florida Chapter of TAAP (The Autism Autoimmunity Project) and eventually became President of that non-profit organization. You can learn more on our "About" link on our vacinfo.org website.

Gary was anointed to teach the simplicity of all dis-eases (cellular malfunction) and how to reverse any "label" given by the drug companies, by teaching the intelligence of our immune system from our Creator. Our bodies were created with 72 trillion plus cells and he was blessed with the wisdom to teach when they malfunction, we malfunction. An example is a broken arm or cut in the finger, which heals on its own! He taught that all dis-eases were simply cellular malfunctions, due to compounding toxicities and compounding insufficiencies to our cells. When I met him in 8/04, he was primarily helping people reverse their cancer process for over 10 years! I witnessed the reversal of not only cancer, but diabetes, ALS, fibromyalgia, autism and every other "label" the MD's are taught. He was the author of a book titled "The Battle of Health is Over pH" and had a CD to complete the book, as well as a CD titled "What in the Cell is Going On?" We are completing this book currently with all the teachings he left us of the simplicity of our Creator's wisdom. *I give thanks to You, for I am awesomely and wondrously made! Wondrous are Your works, and my being knows it well.* Psalms 139:14

I found out from his best friend 2 days after he passed in 2019 that he chose to do over 10 years of steroids in his 20's, which is why he passed prematurely. He also told me that length of time on steroids enlarges all the organs, which is when the "light bulb" went off and I put it all together! I also discovered the 21-day cellular cleanse he formulated to begin reversing ALL dis-ease "labels", which we are continuing to offer is what kept him alive 20 years longer than the other body builders he trained with back in the 80's.

Please take time to watch the simplicity of our Creator's way of getting well and staying well, oppose to the drug companies "symptom suppression". We are trying to open the eyes of the misinformed masses to survive the insanity of the drug companies "sickness incorporated" agenda. Please call us at Precision Healing Cell-utions 561-291-2113 or VIC Fellowship 954-347-9671 to learn more and Yah (aka God) bless!
